Notification : Partial amendment of the FY2020 3Q Financial Briefing

Advantest Corporation would like to announce a revision made to the FY2020 3Q Financial Briefing released on January 28, 2020. This is due to an inaccurate word, which requires the necessary amendment as shown below.

1. Amended Part
Page 14 FY20 Outlook by Segment
Semiconductor & Component Test Systems <SoC Testers> Right Middle Section

【Before revision】 OLED 【After revision】 display

2. Contents of the amendment
Please refer to the following page. Amendment is underlined.

End

FY20 Outlook by Segment

Before revision

Semiconductor & Component Test System Sales Trends (¥B)

Semiconductor & Component Test Systems

<SoC Testers> (+¥23.0B vs Oct. forecast)

- Competition among smartphone players sparked higher-than expected tester demand for SoC semiconductors such as application processors (APU) and DDI products. We have significantly raised our full-year sales forecast
- In the DDI space, we are seeing growing demand related to the transition to TDDI, which is driven by the increasing functionality of OLED panels
- We also anticipate growth centered on HPC and 5G smartphones in 4Q

[Progress toward mid-term sales growth targets (forecast)]

	FY15-17 average	FY18-20 average	Change
SoC Testers	¥79.1B	¥147.9B	+87%
Memory Testers	¥35.3B	¥55.4B	+57%
Total	¥114.2B	¥203.3B	+78%
