FY2008 (forecast)	—	—	—	25.00	50.00

(Note) Revision of dividends forecast for this period : None

### 3. Projected Results for FY2008 (April 1, 2008 through March 31, 2009)

(Note) Revision of earnings forecast for this period : None

Advantest's business focuses on test systems for semiconductors, and relies heavily on the capital expenditure of semiconductor manufacturers, test houses and foundries. The capital expenditures of these companies are determined primarily by factors such as current or future trends in the demand for semiconductors. In recent years, as a result of the expansion in applications for semiconductors, such as for use in digital consumer products, mobile devices and motor vehicles, it has become difficult to foresee trends in the demand for semiconductors. Accordingly, investment plans for semiconductor related capital expenditure, the movements of which have been cyclical thus far, now vary on a daily basis. Because of the great difficulty involved in forecasting earnings in such an operating environment, the earnings forecast for the fiscal year ending March 31, 2009 has not been presented. Advantest intends to promptly disclose the relevant earnings forecast when such disclosure becomes possible.

### 4. Others

(1) Material changes in subsidiaries during this period

(Changes in scope of consolidation resulting from changes in subsidiaries): None

(2) Use of simplified accounting method and special accounting policy for quarterly financial reporting: Yes  
(Note) Please see "Business Results" 4. Others on page 6 for details.

(3) Changes in accounting principles, procedures and the presentation of the quarterly consolidated financial statements

1) Changes based on revisions of accounting standard : Yes

2) Changes other than 1) above : None

(Note) Please see "Business Results" 4. Others on page 6 for details.

(4) Number of issued and outstanding stock (common stock)

1) Number of issued and outstanding stock at the end of each fiscal period (including treasury stock):  
FY2008 Q2 199,566,770 shares; FY2007 199,566,770 shares.

2) Number of treasury stock at the end of each fiscal period:  
FY2008 Q2 20,842,165 shares; FY2007 20,840,721 shares.

3) Average number of outstanding stock for each period (cumulative term):  
FY2008 Q2 178,725,524 shares; FY2007 Q2 184,980,284 shares.

### Explanation on the Appropriate Use of Future Earnings Projections and Other Special Instructions

1. This document contains "forward-looking statements" that are based on Advantest's current expectations, estimates and projections. These forward-looking statements are subject to known and unknown risks, uncertainties and other factors that may cause Advantest's actual results, levels of activity, performance or achievements to be materially different from those expressed or implied by such forward-looking statements. These factors include: (i) changes in demand for the products and services produced and offered by Advantest's customers, including semiconductors, communications services and electronic goods; (ii) circumstances relating to Advantest's investment in technology, including its ability to timely develop products that meet the changing needs of semiconductor manufacturers and communications network equipment and components makers and service providers; (iii) significant changes in the competitive environment in the major markets where Advantest purchases materials, components and supplies for the production of its products or where its products are produced, distributed or sold; and (iv) changes in economic conditions, currency exchange rates or political stability in the major markets where Advantest procures materials, components and supplies for the production of its principal products or where its products are produced, distributed or sold. A discussion of these and other factors which may affect Advantest's actual results, levels of activity, performance or achievements is contained in the "Operating and Financial Review and Prospects", "Key Information - Risk Factors" and "Information on the Company" sections and elsewhere in Advantest's annual report on Form 20-F, which is on file with the United States Securities and Exchange Commission.

2. Effective from the current fiscal year, pursuant to Paragraph 93 of the "Regulations Concerning the Terminology, Forms and Methods of Preparation of Quarterly Financial Statements", the terminology, form and method of preparation of Advantest's quarterly consolidated financial statements are based on U.S. generally accepted accounting principles (U.S. GAAP).

## 【Business Results】

## 1. Analysis of Business Results

## Consolidated Financial Results of FY2008 Q2 (July 1, 2008 through September 30, 2008)

(in billion yen)

	Three months ended September 30, 2007	Three months ended September 30, 2008	As compared to the corresponding period of the previous fiscal year Increase (decrease)
Orders input received	42.0	18.1	(56.8%)
Net sales	57.8	26.0	(54.9%)
Operating income (loss)	12.9	(2.1)	—
Income (loss) before income taxes and equity in earnings (loss) of affiliated company	12.3	(4.6)	—
Net income (loss)	7.0	(2.7)	—

The operating environment during the second quarter of the fiscal year ending March 31, 2009 continued to show indications of decline even further than the previous quarter. In the semiconductor related markets, production by semiconductor manufacturers seemed to have increased upon expectations of special demand for the Beijing Olympics and the price of semiconductors seemed to have bottomed out between the fourth quarter of the previous fiscal year and the first quarter of the current fiscal year. However, demand in connection with personal computers and digital consumer products fell short of expectations and the price of semiconductors remained low due to excess supply during the second quarter, and Advantest's operating environment was extremely difficult. In addition to these factors, due to the global business downturn caused by the expansion of the financial crisis triggered in the U.S.A., corporate revenues showed further sign of slow down, and semiconductor manufacturers showed increased inclination towards restraining their capital expenditures.

In such an operating environment, Advantest, as a group including its related companies, made efforts to reduce costs and optimize inventories by the just-in-time production-system as well as further promoting standardization of parts and design in addition to taking measures such as reducing costs and restraining capital expenditures.

Accordingly, orders input received was (Y) 18.1 billion (a 56.8% decrease in comparison to the corresponding period of the previous fiscal year), net sales were (Y) 26.0 billion (a 54.9% decrease), operating loss was (Y) 2.1 billion, loss before income taxes and equity in earnings of affiliated company was (Y) 4.6 billion, and net loss was (Y) 2.7 billion. Furthermore, the percentage of net sales to overseas customers was 71.3%, compared to 67.4% in the corresponding period of the previous fiscal year.

Conditions of business by segment are described below.

<Semiconductor and Component Test System Segment>

(in billion yen)

	Three months ended September 30, 2007	Three months ended September 30, 2008	As compared to the corresponding period of the previous fiscal year Increase (decrease)
Orders input received	29.3	11.5	(61.1%)
Net sales	44.3	18.6	(57.8%)
Operating income	12.8	0.7	(94.5%)

In the Semiconductor and Component Test System Segment, as a result of substantial measures by semiconductor manufacturers to restrain or freeze capital expenditures, the operating results for test systems for both memory and non memory semiconductors remained weak. For test systems for memory semiconductors, memory semiconductor manufacturers continued to restrain their capital expenditures, due to the substantial decline in the prices of NAND-type flash memory semiconductors and DRAM semiconductors. For test systems for non memory semiconductors, although continued steady operating results in the mobile personal computer markets led to apparent moves towards increasing production of semiconductors relating to these markets, a recovery in capital expenditures failed to materialize. Furthermore, in addition to LCD driver IC manufacturers continuing to freeze their capital expenditures, manufacturers of semiconductors used in digital consumer products and motor vehicles also restrained their capital expenditures as a result of concerns over the future of the economy, therefore the environment overall was extremely difficult.

As a result of the above, orders input received was (Y) 11.5 billion (a 61.1% decrease in comparison to the corresponding period of the previous fiscal year), net sales were (Y) 18.6 billion (a 57.8% decrease) and operating income was (Y) 0.7 billion (a 94.5% decrease).

<Mechatronics System Segment>

(in billion yen)

	Three months ended September 30, 2007	Three months ended September 30, 2008	As compared to the corresponding period of the previous fiscal year Increase (decrease)
Orders input received	7.9	2.8	(64.3%)
Net sales	9.2	5.9	(36.5%)
Operating income (loss)	0.3	(0.3)	—

Semiconductor manufacturers further restrained their capital expenditures in the Mechatronics System Segment during the second quarter, similar to what has occurred with test systems for memory and non memory semiconductors. Accordingly, demand for test handlers and device interface products, which connect to test systems, continued to be weak.

As a result of the above, orders input received was (Y) 2.8 billion (a 64.3% decrease in comparison to the corresponding period of the previous fiscal year), net sales were (Y) 5.9 billion (a 36.5% decrease) and operating loss was (Y) 0.3 billion.

## &lt;Services, Support and Others Segment&gt;

(in billion yen)

	Three months ended September 30, 2007	Three months ended September 30, 2008	As compared to the corresponding period of the previous fiscal year Increase (decrease)
Orders input received	5.2	4.2	(19.9%)
Net sales	5.8	3.8	(33.2%)
Operating income	0.9	0.6	(42.1%)

In accordance with the continuing weakness in demand for support and services for the test systems for semiconductors and test handler systems, orders input received was (Y) 4.2 billion (a 19.9% decrease in comparison to the corresponding period of the previous fiscal year), net sales were (Y) 3.8 billion (a 33.2% decrease) and operating income was (Y) 0.6 billion (a 42.1% decrease).

With respect to the qualitative information concerning the consolidated business results for the first quarter of the fiscal year ending March 31, 2009, please refer to “FY 2008 First Quarter Consolidated Financial Results” (disclosed on July 25, 2008). Monetary amounts recorded in the corresponding period of the previous fiscal year and percentages represented by changes as compared with the corresponding period of the previous fiscal year are included for reference.

## 2. Analysis of Financial Condition

Total assets at September 30, 2008 amounted to (Y) 282.1 billion, a decrease of (Y) 9.6 billion compared to June 30, 2008, primarily due to decreases in trade receivables and inventories. The amount of total liabilities was (Y) 34.2 billion, a decrease of (Y) 5.0 billion compared to June 30, 2008, primarily due to decreases in other accounts payable and trade accounts payable. Stockholder's equity was (Y) 247.9 billion. Equity to assets ratio was 87.9%, an increase of 1.3 percentage point from June 30, 2008.

## (Cash Flow Condition)

Cash and cash equivalents held at September 30, 2008 were (Y) 150.7 billion, an increase of (Y) 3.8 billion from June 30, 2008. Significant cash flows during the second quarter of this fiscal year and their causes are described below.

Net cash provided by operating activities was (Y) 12.4 billion. This amount was primarily attributable to a decrease of (Y) 6.6 billion in trade receivables and a decrease of (Y) 4.5 billion in inventories.

Net cash used in investing activities was (Y) 5.6 billion. This amount was primarily attributable to expenditure in short-term investments in the amount of (Y) 3.0 billion and purchases of property, plant and equipment in the amount of (Y) 2.2 billion.

Net cash used in financing activities was (Y) 0.3 billion. This amount was primarily attributable to dividend payments.

### 3. Prospects for the Upcoming Fiscal Year

With respect to the semiconductor related markets, Advantest anticipates a recovery in investments aimed at commencing commercial production of micro processors and high-speed DRAM semiconductors compatible with next-generation network system and mobile devices and an increase in demand for semiconductor test systems, which are Advantest's core products.

However, Advantest expects that semiconductor manufacturers will continue to exercise caution with respect to capital expenditures, as a result of the continuing low price of semiconductors due to excess supply. In addition, concerns over a global recession, the financial crisis, liquidity issues and daily share price declines could also adversely affect our future financial performance.

In such an operating environment, Advantest plans to maintain and expand market share by supplying new products and providing services which satisfy customers' genuine needs while assessing customers' perspectives to the greatest extent possible, in addition to making utmost efforts towards a recovery in its business results by strengthening its financial structure through further cost reductions.

As stated in the cover sheet (summary information), the projected results for the fiscal year ending March 31, 2009 have not yet been disclosed. Advantest will promptly disclose such projected results once such disclosure becomes possible.

### 4. Others

#### (1) Material changes in subsidiaries during this period

(Changes in scope of consolidation resulting from changes in subsidiaries): None

#### (2) Use of simplified accounting method and special accounting policy for quarterly financial reporting

Tax expense is measured using an estimated annual effective tax rate. Advantest makes, at the end of the second quarter, its best estimate of the annual effective tax rate for the full fiscal year and use that rate to provide for income taxes on a current year-to-date basis. The estimated effective tax rate includes the deferred tax effects of expected year-end temporary differences, and carryforwards must be projected.

#### (3) Changes in accounting principles, procedures and the presentation of the quarterly consolidated financial statements

Effective from the current fiscal year, pursuant to Paragraph 93 of the "Regulations concerning the Terminology, Forms and Methods of Preparation of Quarterly Financial Statements", the terminology, form and method of preparation of Advantest's quarterly consolidated financial statements are based on U.S. generally accepted accounting principles (U.S. GAAP).

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 157, "Fair Value Measurements," which defines fair value, establishes a framework for measuring fair value, and enhances fair value measurement disclosure.

SFAS 157 does not expand the use of fair value to any new circumstances, but does require additional disclosures in both annual and quarterly reports. Advantest adopted SFAS 157 and its related amendments for financial assets and liabilities on April 1, 2008. The adoption of SFAS 157 did not have a significant impact on its consolidated results of operations and financial condition. SFAS 157 will be effective for non-financial assets and liabilities in financial statements issued for fiscal years beginning after November 15, 2008.

## 5. Consolidated Financial Statements and Other Information

## (1) Consolidated Balance Sheets

Assets	Yen (Millions)
