January 28, 2010

Advantest Corporation (FY2009 Q3)

FY2009 Third Quarter Consolidated Financial Results
(Prepared in accordance with U.S. GAAP)
(Period ended December 31, 2009)
(Unaudited)

Company name : Advantest Corporation
(URL http://www.advantest.co.jp/investors/en-index.shtml)
Stock exchanges on which shares are listed : First section of the Tokyo Stock Exchange
Stock code number : 6857
Company representative : Haruo Matsuno, Representative Director, President and CEO
Contact person : Hiroshi Nakamura, Managing Executive Officer and Vice President, Corporate Administration Group
(03) 3214-7500
Quarterly Report Filing Date (as planned) : February 5, 2010

(Rounded to the nearest million yen)

1. Consolidated Results of FY2009 Q3 (April 1, 2009 through December 31, 2009)

(Note) Revision of earnings forecast for this period: Yes

Advantest did not report the earnings forecast for the fiscal year ending March 31, 2010 in late October of last year due to difficulty in forecasting trends in the demand for semiconductors and investment plans for semiconductor related capital expenditure.

At this time, Advantest is able to report the earnings forecast for the fiscal year ending March 31, 2010, taking into account trends in orders input received and other factors in the third quarter. Such earnings forecast is reported above.

4. Others

(1) Material changes in subsidiaries during this period (changes in scope of consolidation resulting from changes in subsidiaries): Yes
   Newly included None; Excluded 1 (Company name: Advantest DI Corporation)
   (Note) Please see “Business Results” 4. Others on page 6 for details.

(2) Use of simplified accounting method and special accounting policy for quarterly consolidated financial statements: Yes
   (Note) Please see “Business Results” 4. Others on page 6 for details.

(3) Changes in accounting principles, procedures and the presentation of the quarterly consolidated financial statements:
   1) Changes based on revisions of accounting standard: None
   2) Changes other than 1) above: None

(4) Number of issued and outstanding stock (common stock):
   1) Number of issued and outstanding stock at the end of each fiscal period (including treasury stock):
      FY2009 Q3 199,566,770 shares; FY2008 199,566,770 shares.
   2) Number of treasury stock at the end of each fiscal period:
      FY2009 Q3 20,844,691 shares; FY2008 20,843,298 shares.
   3) Average number of outstanding stock for each period (cumulative term):
      FY2009 Q3 178,722,701 shares; FY2008 Q3 178,725,171 shares.

Explanation on the Appropriate Use of Future Earnings Projections and Other Special Instructions

This document contains “forward-looking statements” that are based on Advantest’s current expectations, estimates and projections. These forward-looking statements are subject to known and unknown risks, uncertainties and other factors that may cause Advantest’s actual results, levels of activity, performance or achievements to be materially different from those expressed or implied by such forward-looking statements. These factors include: (i) changes in demand for the products and services produced and offered by Advantest’s customers, including semiconductors, communications services and electronic goods; (ii) circumstances relating to Advantest’s investment in technology, including its ability to timely develop products that meet the changing needs of semiconductor manufacturers, communications network equipment and components makers and service providers; (iii) significant changes in the competitive environment in the major markets where Advantest purchases materials, components and supplies for the production of its products or where its products are produced, distributed or sold; and (iv) changes in economic conditions, currency exchange rates or political stability in the major markets where Advantest procures materials, components and supplies for the production of its principal products or where its products are produced, distributed or sold. A discussion of these and other factors which may affect Advantest’s actual results, levels of activity, performance or achievements is contained in the “Operating and Financial Review and Prospects”, “Key Information - Risk Factors” and “Information on the Company” sections and elsewhere in Advantest’s annual report on Form 20-F, which is on file with the United States Securities and Exchange Commission.

In the third quarter of FY2009, the global economy further advanced in the direction of recovery from the downturn triggered by the 2008 financial crisis, with China, India, and most of Asia continuing to post impressive growth.

The semiconductor industry also showed signs of recovery primarily driven by PC and consumer electronics demand. Nearly all chip-makers posted improved results and gradually resumed capital expenditures aimed at boosting productivity, which they had put on hold during the downturn. Correspondingly, demand for Advantest’s products trended robustly upwards, fueling continued sequential gains in sales and orders.

As a result of these developments, orders input received was (Y) 18.7 billion (a 110.4% increase in comparison to the corresponding period of the previous fiscal year, a 29.1% increase in comparison to the second quarter). Net sales were (Y) 12.9 billion (a 11.7% decrease in comparison to the corresponding period of the previous fiscal year, a 15.5% increase in comparison to the second quarter). The percentage of net sales to overseas customers was 76.7%, compared to 55.4% in the corresponding period of the previous fiscal year.

Although net sales have increased since the second quarter, they are still not at the level to reach profitability. Accordingly, Advantest recorded an operating loss of (Y) 5.0 billion and net loss of (Y) 5.7 billion.
Conditions of business by segment are described below.

<Semiconductor and Component Test System Segment>

|                              | Three months ended December 31, 2008 | Three months ended December 31, 2009 | As compared to the corresponding period of the previous fiscal year

</tr>
</tbody>
</table>

In the Semiconductor and Component Test Systems segment, primarily due to renewed capital expenditures from an increasing number of semiconductor manufacturers, orders have been increasing since the second quarter.

In the memory semiconductor test system, Advantest saw a growing number of inquiries for test systems used to manufacture DDR3 DRAM, the memory devices used in high-performance PCs.

In non-memory semiconductor test system, the same expectations around the high-end PC market contributed to continuing robust orders for MPU test systems. Demand for LCD driver IC test systems was also solid, reflecting the healthy LCD television market.

As a result of the above, orders input received was (Y) 12.1 billion (a 343.8% increase in comparison to the corresponding period of the previous fiscal year), net sales were (Y) 7.2 billion (a 4.9% decrease in comparison to the corresponding period of the previous fiscal year) and operating loss was (Y) 3.6 billion.

<Mechatronics System Segment>

|                              | Three months ended December 31, 2008 | Three months ended December 31, 2009 | As compared to the corresponding period of the previous fiscal year

</tr>
</tbody>
</table>

In the Mechatronics System segment, similar to test systems, orders and sales for test handlers and device interface products received a sequential boost from the recovery in capital expenditures seen in the third quarter. Orders for Advantest’s new high-productivity test handlers, which benefited from ramped-up memory production.

As a result of the above, orders input received was (Y) 4.4 billion (a 168.8% increase in comparison to the corresponding period of the previous fiscal year), net sales were (Y) 3.9 billion (a 69.5% increase in comparison to the corresponding period of the previous fiscal year) and operating loss was (Y) 0.7 billion.
In the Services, Support and Others segment, orders and sales decreased compared to the third quarter of FY2008, however, they recorded a robust recovery in profitability for maintenance services, primarily due to higher equipment utilization rates at semiconductor manufacturing facilities.

As a result of the above, orders input received was (¥) 3.4 billion (a 29.3% decrease in comparison to the corresponding period of the previous fiscal year), net sales were (¥) 2.9 billion (a 42.9% decrease in comparison to the corresponding period of the previous fiscal year) and operating income was (¥) 0.5 billion (33.5 times in comparison to the corresponding period of the previous fiscal year).

With respect to the qualitative information concerning the consolidated business results for the first quarter and the second quarter of the fiscal year ending March 31, 2010, please refer to “FY2009 First Quarter Consolidated Financial Results” (reported on July 29, 2009) and “FY2009 Second Quarter Consolidated Financial Results” (reported on October 28, 2009).

2. Analysis of Financial Condition

Total assets at December 31, 2009 amounted to (¥) 185.1 billion, a decrease of (¥) 16.9 billion compared to March 31, 2009, primarily due to decrease in cash and cash equivalents. The amount of total liabilities was (¥) 37.6 billion, a decrease of (¥) 0.8 billion compared to March 31, 2009, primarily due to increase in trade accounts payable and decrease in other accounts payable. Stockholders’ equity was (¥) 147.5 billion. Equity to assets ratio was 79.7%, a decrease of 1.3 percentage point from March 31, 2009.

(Cash Flow Condition)

Cash and cash equivalents held at December 31, 2009 were (¥) 89.4 billion, a decrease of (¥) 13.3 billion from September 30, 2009. Significant cash flows during the third quarter of this fiscal year and their causes are described below.

Net cash used in operating activities was (¥) 6.3 billion (Net cash out flow (¥) 7.2 billion in the corresponding period of the previous fiscal year). This amount was primarily attributable to net loss of (¥) 5.7 billion.

Net cash used in investing activities was (¥) 7.8 billion (Net cash out flow (¥) 16.3 billion in the corresponding period of the previous fiscal year). This amount was primarily attributable to increase in short-term investments in the amount of (¥) 7.1 billion and purchases of property, plant and equipment in the amount of (¥) 0.9 billion.

Net cash used in financing activities was (¥) 0.8 billion (Net cash out flow (¥) 4.2 billion in the corresponding period of the previous fiscal year). This amount was primarily attributable to (¥) 0.8 billion dividends paid.
3. Prospects for the Upcoming Fiscal Year

With the prospect of the global economy having bottomed out, the semiconductor market is once again beginning to expand. In such an operating environment, semiconductor manufacturers plan capital expenditures, not only to increase production and productivity, but also to develop process shrink technology for production of next generation of devices.

In this operating environment, through Advantest’s corporate initiative “1000 Days,” launched in July 2009, Advantest will focus to further improve its delivery response time, and will continue to provide timely new solutions optimized for current market needs. Advantest will also strive to develop new businesses outside the semiconductor industry, and to improve its overall cost structure with the goal of achieving profitability in the earliest possible timeframe.

For the fiscal year ending March 31, 2010, Advantest forecasts sales of (Y) 52.0 billion, operating loss of (Y) 13.0 billion, loss before income taxes and equity in loss of affiliated company of (Y) 11.5 billion, and net loss of (Y) 13.5 billion.

4. Others

(1) Material changes in subsidiaries during this period (changes in scope of consolidation resulting from changes in subsidiaries): Yes

   Excluded 1: Advantest DI Corporation

   Advantest DI Corporation was merged with Advantest Manufacturing, Inc. which is Advantest’s subsidiary on April 1, 2009.

(2) Use of simplified accounting method and special accounting policy for quarterly consolidated financial statements:

   Tax expense is measured using an estimated annual effective tax rate. Advantest makes, at the end of the third quarter, its best estimate of the annual effective tax rate for the full fiscal year and use that rate to provide for income taxes on a current year-to-date basis. The estimated effective tax rate includes the deferred tax effects of expected year-end temporary differences and carryforwards, and the effects of valuation allowances for deferred tax assets.

(3) Changes in accounting principles, procedures and the presentation of the quarterly consolidated financial statements: None
5. Consolidated Financial Statements and Other Information

(Notes)
1. Adjustments to operating income (loss) in Corporate principally represent corporate general and administrative expenses and research and development expenses related to fundamental research activities that are not allocated to operating segments.
2. Advantest uses the operating income (loss) before stock option compensation expense for management’s analysis of business segment results.

2. Consolidated Net Sales by Geographical Areas

</table>

(Notes)
1. Net sales to unaffiliated customers are based on the customer’s location.
2. Each of the segments includes primarily the following countries or regions:
   (1) Americas — U.S.A., Republic of Costa Rica, etc.
   (2) Europe — Israel, Germany, etc.
   (3) Asia — South Korea, Taiwan, Malaysia, China, etc.

(6) Notes on Significant Changes to Stockholders’ Equity: None
