

## **Advantest Group Environmental Policy**

The Advantest Group contributes to the development of a sustainable society through its business activities.

In addition, the Advantest Group is committed to the protection of the environment by taking action against climate change, protecting biodiversity and ecosystems, and contributing to the sustainable use of energy and water resources. We are actively engaged as a trusted corporate citizen in getting all of our employees involved in the following environmental conservation initiatives.

### **1. Promoting Environmental Management**

We promote global environmental conservation efforts by maintaining our environmental management system and setting environmental goals for achieving a balance between business activities and reducing environmental burden.

### **2. Reduction of Customers' Environmental Burden**

We promote energy conservation, improved recyclability, and the elimination of hazardous substances to provide environmentally-friendly products and services that contribute to our customers' reduction of their environmental burdens, giving consideration to the life cycle of our products: from materials procurement to waste disposal.

### **3. Better Workplace Procedures**

We constantly strive to reevaluate and reform work procedures to help improve environmental performance through environmentally-friendly manufacturing.

### **4. Environmental Protection and Sustainable Resource Use**

By being alert to the impact of our business activities on the environment, we are committed to the protection of the environment by taking action against climate change, protecting biodiversity and ecosystems, and contributing to the sustainable use of energy and water resources.

### **5. Complying with Environmental Laws and Regulations and Preventing Pollution**

Upholding all environmental laws and regulations and voluntary standards, we protect nature and shield our neighbors from environmental pollution and health hazards posed by chemical substances or waste.
