<Reasons for Revisions>

In CY2026, the semiconductor industry growth is likely to continue to be driven by AI-related semiconductors, as in the previous year. In the semiconductor tester industry, tester demand is likely to remain high, driven by factors such as the increasing complexity and enhanced performance, as well as expansion of the supply chain and production volume growth of AI-related semiconductors. Based on this outlook and the progress made for the nine-month period ended December 31, 2025, Advantest has revised its full-year consolidated earnings forecast for the current fiscal year as shown above.

Cautionary Statement with Respect to Forward-Looking Statements

This document contains “forward-looking statements” that are based on Advantest’s current expectations, estimates and projections. These statements include, among other things, the discussion of Advantest’s business strategy, outlook and expectations as to market and business developments, production and capacity plans. Generally, these forward-looking statements can be identified by the use of forward-looking terminology such as “anticipate,” “believe,” “estimate,” “expect,” “intend,” “project,” “should” and similar expressions. Forward-looking statements are subject to known and unknown risks, uncertainties and other factors that may cause Advantest’s actual results, levels of activity, performance or achievements to be materially different from those expressed or implied by such forward-looking statements.
